

Manhattan Sailing Club acquires *America II*

The Manhattan Sailing Club's flagship, *America II*, arrived in North Cove on December 14th. Sixty five feet long, she raced in the America's Cup in Australia in 1987, but did not win. She was purchased by a syndicate of 21 club members and after time in a boatyard this winter undergoing some repairs, she'll return to North Cove and be available for corporate and public sails.
